

HOMAAN Co.

HOMAAN Co.

Gilsonite Supplier And Exporter

COMPANY PROFILE

Globally Trusted Brand

In mining, supply and export
of Gilsonite (Natural Bitumen)

About Us

Homaan is a leading provider of Gilsonite (Natural Bitumen) in the Middle East, consistently ranking among the top three producers and exporters in the region. With over 15 years of experience in the industry, we have developed a deep understanding of the extraction, manufacturing, mining, quality assurance, packaging, logistics and supply chain. Our team is dedicated to providing top-quality Gilsonite and exceptional service to our clients, both locally and internationally. We are confident in our ability to meet the diverse needs of our customers and strive to be a reliable and trusted partner for all of your Gilsonite needs.

About Us

In the last decade, as we underwent massive development, Homaan Co made the decision to broaden its scope of operations by adding in-house R&D departments to evaluate, market and expand research on the usage effectiveness and benefits of Gilsonite in the petroleum industry (Drilling), waterproofing and road construction, in addition to our existing Gilsonite extraction activities. Over the years, our company has significantly increased its presence by establishing trade relations with top distributors in Asia and Europe. We have set up four additional offices in Nanjing, Guangzhou, Qingdao (China) and Malaga (Spain) to facilitate closer relationships with our clients and gain a deeper understanding of their needs, allowing us to address their requests promptly.

OUR PRODUCTS

Gilsonite(Natural Bitumen, uintaite) is a unique, naturally occurring mineral that is highly valued for its versatility and performance. It is a hard, brittle, and shiny substance that resembles asphalt or coal. It is an environmentally friendly additive that can not only reduce environmental risks but also lower costs in industries including road construction, waterproofing and oil drilling operations.

Gilsonite has a number of remarkable properties that make it suitable for a wide range of applications. It is highly resistant to heat, chemicals, and UV light, making it ideal for use in products that are exposed to these elements. It is also highly water-resistant, making it useful in products that are designed to withstand wet conditions.

OUR PRODUCTS

S-H1

Test	Result	Test Method
Ash content, wt%	5 to 10	(ASTM D27170-M)
Solubility in CS ₂ , wt%	85 to 95	(ASTM D4)
Color in Mass	Black	-
Softening Point, °C	180 to 210	(ASTM E2892-)
Moisture content, wt%	<1.5	(ASTM 3174)
Sulfur Content, wt%	2 to 4	(ASTM D4294)
Flash Point (COC), °C	310<	(ASTM D93)

M-H2

Test	Result	Test Method
Ash content, wt%	10 to 15	(ASTM D27170-M)
Solubility in CS ₂ , wt%	80 to 85	(ASTM D4)
Color in Mass	Black	-
Softening Point, °C	165 to 185	(ASTM E2892-)
Moisture content, wt%	<1.5	(ASTM 3174)
Sulfur Content, wt%	2 to 4	(ASTM D4294)
Flash Point (COC), °C	300<	(ASTM D93)

P-H3

Test	Result	Test Method
Ash content, wt%	15 to 20	(ASTM D27170-M)
Solubility in CS ₂ , wt%	75 to 85	(ASTM D4)
Color in Mass	Black	-
Softening Point, °C	160 to 180	(ASTM E2892-)
Moisture content, wt%	<1.5	(ASTM 3174)
Sulfur Content, wt%	2 to 4	(ASTM D4294)
Flash Point (COC), °C	300<	(ASTM D93)

Services

1. Supply

We have our own mine, as well as access to other mines in Iran with varying production capacities and qualities. These additional mines allow us to have a complete range of supply options and fulfil any customer needs.

2. Processing

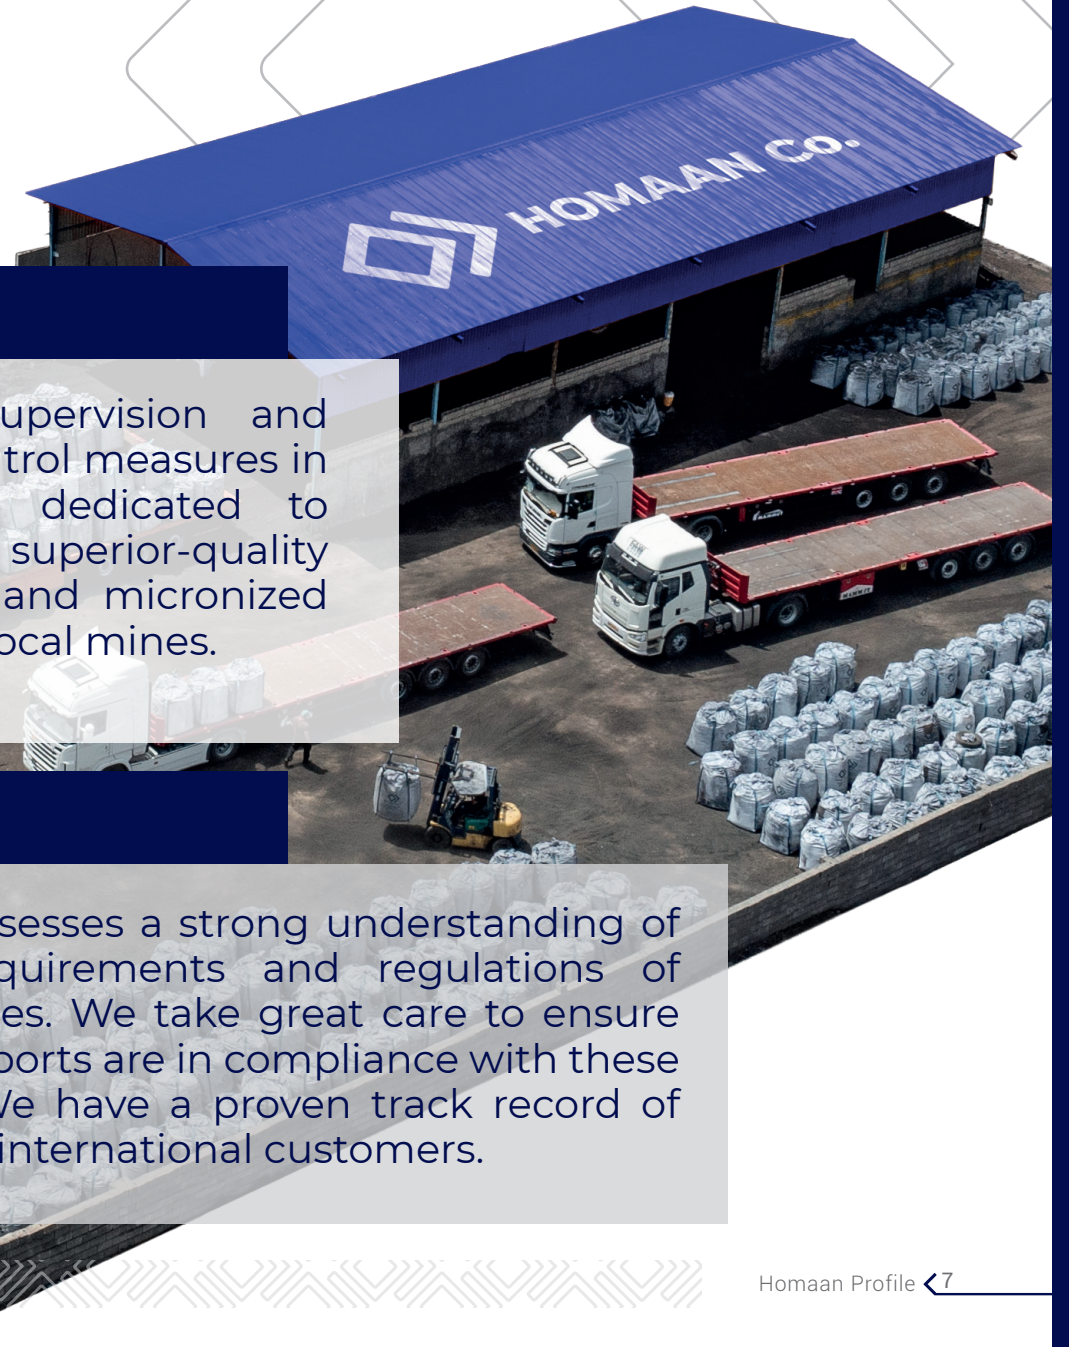

With expert supervision and strict quality control measures in place, we are dedicated to producing superior-quality Lump, Powder, and micronized Gilsonite at our local mines.

3. Packing

We offer a variety of packaging options to meet the needs of different end markets and customers, including bulk packaging, personalized label packaging, and retail packaging

4. Export

Homaan Co possesses a strong understanding of the unique requirements and regulations of different countries. We take great care to ensure that all of our exports are in compliance with these requirements. We have a proven track record of deliveries to our international customers.
